CAREER OBJECTIVE

Frontend developer with proven experience in helping companies create and maintain a better code base for reusability. Capable of continuous learning from senior developers while still nurturing junior developers. Experience in driving projects forward as the development team leader, facilitating projects from concept to launch. Passionate about learning and development with desire to apply skills on larger development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

WORK EXPERIENCE

Front-end intern

Safaricom Company

Jan 2022 – Dec 2022

- Developed Membership, event and legal platform technology solutions and automated internal processes
- Designed and implemented web applications along with 3rd party software integrations as a web team liaison for all inter-department and customer facing projects.
- Developed a node.js server to validate a membership and track digital badges being used, saving the company almost 100 dollars.

Technical Writer

Open Replay: Freelance

Jan 2021 – Present

- I'm currently crafting High quality and informative articles not only to educate but also to engage and captivate our target audience. My extensive research, writing and editing experience has enabled me to effectively communicate complex technical concepts in a simplified and easily understandable manner.
- Skills: Technical writing, Web Development

Research Intern

County Government of Uasin Gishu

May 2019 -Dec 2019

- Monitor and maintain computer systems and networks
- Talk to staff or clients through a series of actions, either face-to-face or over the phone, to help resolve issues
- Provided both 1st and 2nd line support to internal and external clients to troubleshoot and diagnose all technical faults, configuration issues and queries.
- Governed a range of change requests, configurations and implementations for cooperate users

- Troubleshoot system and network problems, diagnosing and solving hardware or software fault
 - Monitored the IT services desk and evaluated incoming queues, and the allocation of queries to the correct team or engineer for prompt resolution.
-
